	EGPWS
	Fully Electronic Cockpit (EFIS)

The Bombardier Challenger 300 is a Super-Midsize Jet that incorporates the latest technology, including "Fly by Wire" controls and avionics more advanced than the most modern airliners.

The aircraft features a wide bodied stand up cabin and luxury appointed interior with seating for up to nine people in a mixture of individual leather chairs and side facing sofa. The Settee converts into a flat bed with facilities for a further 3 fully flat beds.

A state-of-the-art entertainment system is installed featuring dual DVD players, airshow inflight map with 20" flat panel monitors and individual touch screens on each seat.

A satellite phone system is available with worldwide coverage.

A separate bar / galley with hot food facilities adds to this outstanding transcontinental jet.

The aircraft can fly non stop:

London – Moscow	3.10
London – Riyadh	6.20
London – Tel Aviv	4.40
London – Baku	5.00
New York – London	6.40

CHALLENGER 300

With London as its base the Challenger 300 can take you non-stop to four continents – North America, Europe, Africa and Asia.

The Challenger 300 travels at 45,000 feet, well above both traffic and weather.

A range of over 3500 miles and a cruising speed of 550 mph enables the aircraft to effectively reach destinations far away in quiet, spacious relaxation.

Unmatched in so many areas, the Challenger 300 delivers unparalleled performance at a lower cost of any aircraft in its class. This brand new aircraft will be setting the standards in private jet travel for years to come.
