The Citation Mustang is a New Generation Light Jet, that offers unparalleled performance and safety. The aircraft incorporates the latest technology, including the revolutionary Garmin 1000 suite of avionics only seen in the modern airliners.

The aircraft features a club four seating arrangement and can seat up to four people in comfort in individual leather seats.

A satellite phone system is available with worldwide coverage.

Light catering can be provided to round off what is the dependable choice for entry-level business aviation.

The aircraft can fly non stop:

|                    |             |
|--------------------|-------------|
| London – Paris     | 1hr 00mins  |
| London – Zurich    | 1hr 45mins  |
| London – Cannes    | 2hrs 00mins |
| London – Barcelona | 2hrs 25mins |
| London – Rome      | 2hrs 55mins |

*With a combination of power and speed the Citation Mustang puts Europe within easy reach.*

The Citation Mustang travels at 41,000 feet, well above both traffic and weather.

A range of 1300 miles and a cruising speed of 390 mph makes the Mustang an ideal choice for many European journeys.

The Citation Mustang has started a new era of affordable business and private jet travel. As the first in a new generation of entry-level business aircraft, the Mustang offers the state-of-the-art advantages of a jet, but at a price lower than any existing jet or even turboprop aircraft.

*Cessna Citation Mustang*
