The Beechcraft KingAir 200 is the worlds best selling turbo-prop aircraft.

This aircraft incorporates the latest avionics sophistication and systems integration usually found in the most expensive business jets.

The aircrafts "quiet cabin" offers a spacious and refined quality which differentiates the KingAir from others in its class.

On board individual video players are available and are accompanied by a global satellite phone.

The aircraft can fly non stop:

London – Paris	1.10
London – Geneva	1.50
London – Nice	2.30
London – Berlin	2.20
London – St. Moritz	2.20
London – Ibiza	3.30

The KingAir 200 can operate from runways as short as 800m / 2500 ft.

Offering unmatched take-off and landing performance the B200 can use many of the smaller airports in the UK and Europe no other aircraft can touch.

Using powerful yet economical engines to cruise at a speed of 300 mph and travelling at a range of 1,400 miles the KingAir 200 delivers the comfort, range, speed and flexibility needed in today's world.

Its easy to see why this aircraft has become so popular in the leisure and business world.
